## From Yes..... to Swimming in less time than you think.

Because Barrier Reef brand pools are built under ideal factory conditions the time spent completing the project is much less than other types of construction. The disruption and building time is kept to a minimum. This means a pool that is surprisingly affordable. The Barrier Reef structure uses no fillers that could adversely affect structural integrity. Our manufacturing process uses only the highest quality and purest components with no inert ingredients. The glass fiber laminate application process exceeds US standards. Your Barrier Reef pool will be able to withstand ground movement and frost heaves - the structure is so strong that it comes with a lifetime warranty and a transferable ownership option. Because Barrier Reef Pools has been using our Sparkle finish for two decades we offer an unprecedented 15-year finish warranty, the longest and most comprehensive in the industry.

## Whitsunday Features:

1. Wide-Access Entry Stairway
2. Energizer seat option.
3. Seven fabulous colors that Sparkle in the sun.
4. Bench seating for your guests
5. Swim ledge
6. Contemporary styling
7. In three sizes

**New for 2012...**A reinvention of a Classic swimming pool shape. The Whitsunday range of rectangle pools. In three sizes with depths available to almost 7 feet. Designed for maximum swim room, the side entry steps allow access to the full pool length for exercise and swimming laps. Deep end benches and steps make the most of space for relaxing and entertaining after you workout. The Classic shape makes it easy to add a automatic cover option. The dual easy side steps allows maximum swim length for exercise laps. Wouldn't a Whitsunday look good in your yard?
